

# Quikfix RoadLine

## ROAD LINING AND SURFACE MARKING

### Total Service

Quikfix RoadLine is just one of the Quikfix range of superior products and superlative services providing a "one-stop-shop" for road authorities.

Quikfix RoadLine delivers a total service, working in partnership to assess, design and implement a thorough surface marking strategy regardless of the size and scale of required works.

### Proven Technology

We use both cold-lay and thermoplastic paints, both of which are proven in numerous applications worldwide, both indoors and out.

These paints are non-slip and possess hi-visibility for extra road safety. They are sustainable in even the worst of weather. Paints come in a wide variety of colours and are reflective or non-reflective as required.

Quikfix RoadLine provides all your road and surface marking needs using the latest cold-lay and thermoplastic paints together with modern application methods.

A fast, accurate service offering a variety of non-slip, hi-visibility, reflective colours suitable for roads, highways, factories, car parks, playgrounds and sports courts.

A wide range of standard designs are also available including arrows, wheelchairs, cycles, speed numbers, pedestrian figures, etc.

Quikfix RoadLine delivers a comprehensive service, working with Road Authorities to assess, design and implement a thorough road and surface marking strategy. We also maintain and, where necessary, remove existing lines and redundant surface treatments.

Our RoadMark, RoadSafe, RoadSign and Instant Road Repair services are available to provide a total RoadCare™ program.
